

NAWAKARA
SECURITY SOLUTIONS
PLAN - PREVENT - PROTECT

The Real Solutions For Your Security Needs

Solutions for You

We understand your security needs. Plan your security strategy with us and get layers of protection for your businesses any sectors you we have the right answer for you.

The real solution for your security needs stand beyond physical protection. We take you one step further towards an integrated framework of Plan-Prevent-Protect the comprehensive solution for protecting your valuable assets and preventing loss.

Nawakara is deeply committed to sustainability and responsible growth, embedding Environment, Social & Governance principles into every aspect of our operations.

Message from the President Director & Chief Executive Officer

For nearly three decades, PT Nawakara Perkasa Nusantara has grown into one of Indonesia's leading security solutions providers. Since our establishment, we have been driven by a single purpose to deliver professional, reliable, and adaptive security services that create safety and peace of mind for both the community and businesses across the nation.

Our business foundation stands on three core pillars:

1. **Manned Guarding:** professional security personnel who are trained, disciplined, and uphold integrity;
2. **Security Technology:** modern and integrated technology solutions that enhance operational efficiency and real-time monitoring; and
3. **Consulting & Training:** strategic consulting and professional training services to build a strong and sustainable security culture.

Through these pillars, we serve a diverse range of sectors including:

1. **Resources & Utilities:** covering energy, mining, and other vital national infrastructures;
2. **Manufacture & Industrial:** focusing on operational security and asset protection; and
3. **Commercial & Hospitality:** supporting the creation of safe, comfortable, and high-standard environments for businesses and guests alike.

As the world moves rapidly into the era of digital transformation and increasingly complex security challenges, Nawakara continues to innovate by integrating human excellence with advanced security technology. We believe the future of the security industry lies in the ability to adapt, collaborate, and innovate in response to evolving risks and client needs.

Looking ahead, we are committed to continuously developing our people, strengthening digital infrastructure, and expanding strategic collaborations with partners from both public and private sectors. These initiatives ensure that every solution we deliver remains relevant, proactive, and value-driven in safeguarding our clients' interests.

To all our partners, clients, and Nawakara people, we extend our deepest gratitude for your trust and dedication throughout our journey. With a spirit of professionalism, innovation, and collaboration, Nawakara will continue to move forward as a trusted partner in creating a safer, stronger, and more sustainable Indonesia.

Dino Bimadwinanda Hindarto

President Director & Chief Executive Officer

Nawakara Journey

PT Nawakara Perkasa Nusantara was established on November 9, 1996, with the Eagle emblem symbolizing strength and vigilance. The company initially focused on Central Monitoring System (CMS) services, later expanding into Manned Guarding as its first step in physical security services.

2001 - 2008

Nawakara became the first Security Service Company (BUJP) in Indonesia to obtain ISO 9001:2000 certification, later updated to ISO 9001:2008, demonstrating its commitment to quality assurance and strengthening client trust.

2014 - 2018

Nawakara expanded its services by developing Security Devices and Non-Manned Guarding lines (Device, Consulting & Training, RSO). During this period, the company launched a new website, corporate profile, and the Android-based patrol application Nawakara Supervisory Application (NSA) Its digital presence was strengthened through Instagram and Facebook, while also actively participating in national events such as IPAMINDO and KIPNAS 2018.

2020 - 2022

Nawakara established a Covid-19 Task Force and Integrated Solutions, enforced a Code of Conduct (CoC), and migrated from OHSAS 18001 to ISO 45001. The company also achieved ISO 14001, ISO 22301, and ISO 37001 certifications. During this period, Nawakara launched its internal media JIWA, retained the Gold Flag of SMK3 (2019–2022), earned the Operational Excellence Award from Chevron, conducted competency assessments & Talent Programs, and was recognized as the Best RSO.

2012

Nawakara rebranded from “Security System” to “Security Solutions”, reflecting a more holistic approach in delivering integrated security solutions.

2019

Nawakara focused on developing its Command Center, enhancing Security Master Plan (SMP) consulting services, and implementing ERP for business automation. The company received the “Zero Accident” award from the Regent of Ende and the Gold Flag of SMK3 from the Ministry of Manpower.

2024

Nawakara implemented a Learning Cycle to strengthen employee competencies, conducted the soft launch of its new office, and optimized ISO 37001:2016 implementation. The company also launched its CSR program Nawakara Gemilang and the digital product Protectify as an integrated security solution, while preparing its steps toward IPO.

Vision & Mission

Our Vision

We envision our company to be a trusted partner in integrated security solutions that is compliant with the Health, Work Safety, and Environment principles in order to optimize benefits for the entire stakeholders.

Our Mission

In our company, we believe that Human Competence Development is the foundation to achieve the company's goals. This is done by identifying employee's individual talent and supporting them to work more effectively so that they can achieve their full potential.

Corporate Values

F

Focus

Work with full commitment and thoroughness, demonstrating behavior of high dedication and carrying out tasks with full responsibility.

A

Advance

Think openly and be result-oriented, demonstrating initiative, creativity, and innovation at work, while continuously improving personal competence in line with current and ongoing conditions.

I

Integrity

Work in accordance with company regulations, demonstrate honest behavior, and prioritize the interests of the company above personal or functional interests.

T

Teamwork

Collaborate to achieve company goals, demonstrate empathetic behavior toward related processes, and maximize synergy among individuals/departments.

H

Holistic

Think comprehensively and in an integrated manner, demonstrate work behavior by understanding the business process as a whole and recognizing the needs of stakeholders.

What We Do

Manned Guarding Services

Professional Personnel
Delivering Strategic Protection

Security Guards

Our professional security guards undergo comprehensive training to provide continuous surveillance, proactive threat assessment, and immediate response protocols, ensuring robust asset security and professional excellence.

Close Protection

Providing discreet and personalized protection for high-profile individuals, our experts meticulously assess and neutralize risks to ensure maximum safety and privacy.

Emergency Response Team

Our rapid deployment specialists provide immediate and coordinated response to critical incidents, minimizing disruption and swiftly restoring stability.

Crowd Control Management

We offer comprehensive planning and execution for events, encompassing risk assessment, efficient crowd management, strict access control, and robust emergency preparedness strategies.

Canine / K-9 Units

Highly trained canine units, paired with expert handlers, significantly enhance the detection of contraband, explosives, or intruders, serving as a critical deterrent and specialized asset.

Security Technology

Intelligent Technology for Proactive Security

Nawakara Command Center (NCC)

The Nawakara Command Center (NCC) is the nerve center for all security operations, providing vigilant 24/7 oversight. It harnesses advanced real-time monitoring of integrated systems to enable immediate, decisive dispatch of rapid response teams. The NCC ensures proactive threat mitigation and seamless, synchronized coordination across every layer of your security infrastructure.

Electronic Security System

Our comprehensive electronic security systems provide continuous real-time monitoring and proactive defense. They integrate high-definition CCTV, advanced access control, drone surveillance, and X-ray screening. These solutions deter unauthorized access, detect anomalies, and capture critical evidence to enhance perimeter security.

Digital Radio Communication

Our secure digital radio communication network, utilizing technologies like DMR (Digital Mobile Radio) and POC (Push-to-Talk over Cellular), ensures clear, encrypted, and instant coordination among on-site personnel. This advanced system facilitates seamless information exchange and improves operational efficiency. Nawakara handles all necessary radio communication licenses and regulatory compliance for these systems.

Maintenance & Support

We offer comprehensive 24/7 technical support and maintenance, including preventive and corrective services. Options for dedicated on-site engineers ensure optimal performance and reliability for all deployed security systems.

Protectify Mobile Security App

The Protectify mobile app empowers on-site security teams with real-time tools for efficient management. It streamlines daily patrols with GPS tracking, automates attendance, facilitates daily and incident reports, and provides immediate emergency alerts. This app enhances situational awareness and accelerates response times.

Visitor Management System (VMS)

Our advanced Visitor Management System streamlines and secures access, featuring seamless pre-registration, QR code check-ins, and real-time visitor logs. It integrates deeply with access control, CCTV, AI, and IoT systems, providing holistic visibility and control. This enables optimized visitor flow, enhanced situational awareness, and proactive threat mitigation at every entry point.

Alarm System

We deploy alarm systems with motion sensors, glass-break detectors, and panic buttons for immediate intrusion or emergency detection. Integrated with our Command Center, these systems trigger instant alerts for rapid security response and swift incident management.

AI Analytics

Leveraging cutting-edge AI, our analytics systems automate threat detection from CCTV with ONVIF. AI algorithms identify unusual behavior or perimeter breaches with high accuracy, generating real-time alerts. Specific capabilities include intrusion detection, people counting, object detection, and PPE (Personal Protective Equipment) detection. This proactive approach minimizes false alarms and allows security teams to focus on verified threats.

Vehicle Security & Tracking

Secure vehicle data, intelligent rule-based alerts, and clear fleet performance insights. Keep your vehicles and valuable assets safe with encrypted real-time tracking, instant theft and anomaly detection, geofence protections, and automatic incident escalation. Reduce losses, improve driver behaviour, and get reliable, compliance-ready, and visibility across your entire fleet.

Consulting & Training

Building Strategic Security Frameworks for Sustainable Protection

Security Risk & Vulnerability Assessment

We conduct comprehensive risk assessments to proactively identify vulnerabilities and strengthen your security posture. Our expert analysis ensures regulatory compliance while providing strategic recommendations for enhanced protection.

Ship and Port Facility Security Assessment

As a Recognized Security Organization (RSO), Nawakara delivers specialized maritime security assessments that ensure full compliance with the ISPS Code. Our comprehensive evaluations meticulously cover physical infrastructure, operational procedures, and robust security protocols, safeguarding critical ship and port facility operations with unparalleled expertise and authority.

Security Information & Advisory

Nawakara provides critical security intelligence and strategic insights to empower informed decision-making and robust security planning. Through comprehensive threat analysis and proactive assessments of emerging technologies, we equip leaders with the foresight and expertise required for proactive risk mitigation.

Security Management System

We design and implement comprehensive Security Management Systems aligned with national and international standards, including OBVITNAS SMP for National Critical Infrastructure. Our integrated approach ensures structured governance and operational excellence.

Security Training

Our expert-led programs deliver mandatory certifications including Gada Pratama, Madya, and Utama, alongside HSE and specialized training. We provide industry-specific programs that build essential skills and foster proactive security mindsets.

Stakeholder Mapping

We conduct detailed stakeholder analysis to understand complex organizational dynamics and community interests. This strategic mapping enables the development of effective, community-aligned security strategies for sustainable implementation.

Who We Serve

Resources & Utilities

Uninterrupted Operations, Unyielding Protection

Nawakara provides integrated security solutions, ensuring uninterrupted operations for the Resources & Utilities sector. This includes vital industries such as Mining (Coal, Metals, Minerals), Oil & Gas (Upstream, Midstream, Downstream), Power Generation (Thermal, Hydro, Geothermal), Renewable Energy (Solar, Wind), Water Management, and other essential Infrastructure with our focus: Asset Protection, Personnel Safety & Community Relations.

Our Integrated Solutions: Tailored to Your Unique Challenges.

Manned Guarding

- Security Guards providing constant vigilant presence
- Emergency Response Teams for swift crisis action
- Close Protection for key personnel safety
- Crowd Control Management for public disturbances
- K-9/Canine units for enhanced detection capabilities

Security Technology

- Advanced CCTV with AI Analytics Access Control Systems and Barrier Gates
- X-Ray/Metal Detectors for screening
- Drone surveillance for vast remote sites
- Digital Radio Communication systems

Nawakara Command Center (NCC)

Central nerve center integrating real-time data from all security operations, enabling immediate threat analysis and coordinated response deployment 24/7.

Consulting and Training

Comprehensive Security Risk Assessments, Stakeholder Mapping, Specialized Security Training, and Security Management System implementation.

Manufacture & Industrial

Uninterrupted Production, Unyielding Protection

Nawakara is a leading provider of integrated security solutions, dedicated to safeguarding the intricate operations of the Industrial & Manufacturing sector. This encompasses diverse industries such as Automotive, Chemicals, Electronics, Food & Beverage, Pharmaceuticals, Heavy Machinery, Textiles, Logistics & Warehousing, and other advanced production facilities with our focus: Production Excellence, Asset Protection, Community Relations.

Our Integrated Solutions Portfolio (Advanced Surveillance, Access Control & Screening, Aerial Monitoring).

Manned Guarding

- Security Guards
- Patrol Team
- Digital Radio Secure Comms with push-to-talk encrypted
- Emergency Response Team
- Close Protection
- K-9 Screening Support (with inspections)

Security Technology

- AI analytics for CCTV perimeter detection, PPE monitoring, and people counting
- Electronic systems including HD CCTV, thermal cameras, biometric access control
- Alarm sensors for doors, temperature, vibration integrated to NCC

- Visitor management with QR check-in and badge printing
- Vehicle security and tracking, vehicle tracking and monitoring, geofencing capabilities, and comprehensive route tracking for optimal security patrol efficiency.
- Protectify Mobile Solutions, Digital patrol check-ins, real-time incident reporting, and evidence capture capabilities for enhanced security operations.
- Maintenance & Managed Services: Complete SLA coverage with preventive maintenance programs and dedicated on-site engineering support to ensure optimal system performance.
- Nawakara Command Center (NCC) for dispatch and case management
- Security risk and vulnerability assessments with site surveys
- Security information and advisory services
- Stakeholder mapping and management systems
- Comprehensive training including tabletop drills and emergency response

Commercial & Hospitality

Seamless Operations, Uncompromised Safety

Nawakara is a leading provider of integrated security solutions, dedicated to safeguarding the dynamic and people-centric operations of the Commercial & Hospitality sector. This encompasses diverse establishments such as Shopping Malls, Hotels & Resorts, Convention Centers, Office Buildings, Retail Outlets, Entertainment Venues, Restaurants, Residential Complexes, and large-scale Public Facilities with our focus: Asset Protection, Brand Reputation, Guest Safety.

Our Integrated Solutions: Tailored to Your Unique Challenges (People, Process, Technology)

Manned Guarding

- Security Guards & Crowd Control: patroli proaktif, event management, VIP/close protection.
- Emergency Response Team: rapid deployment terkoordinasi via NCC.
- Digital Radio Secure Comms with push-to-talk encrypted
- Canine / K-9 Units: pendukung deteksi dan screening untuk event besar.
- Field Tools: Protectify untuk patrol check-in, incident capture, dan route adherence.

Security Technology

- AI Analytics: AI CCTV untuk verified alerts (intrusion, loitering, people counting, PPE).
- Electronic Security Systems: CCTV, access control, drone surveillance, X ray screening.

- Visitor Management System: QR check in, pre registration, real time tracking.
- Alarm Systems: integrated alarm triggers to NCC.
- Vehicle Security & Tracking: monitoring vehicle, valet, service vehicles, asset.
- Digital Radio Communication & Protectify App: secure comms, patrol, attendance, mobile incident reporting, sos panic button.
- NCC (Command Center): centralized monitoring, automated escalation, unified incident logging.

Consulting & Training

- Security Risk & Vulnerability Assessment: site survey, threat modelling, stakeholder mapping.
- Security Management System & SOP: design & implement governance aligned with standards.
- Security Training & Tabletop Exercises: Gada certifications, HSE, de escalation, drills.
- Implementation & Maintenance Support: integration services, on site engineers, SLAs.

Certifications

ISO 9001-2015

Quality Management System, Certification since November, 2004.

ISO 45001-2018

Occupational Health & Safety Management System. Certification in 2020 (Migration from OHSAS, certification in 2012).

ISO 14001-2015

Environmental Management Systems, Certification since January, 2021.

ISO 22301-2019

Business Continuity Management System, Certification since January, 2021.

ISO 37001-2016

Anti-bribery Management Systems, Certification since January, 2021.

RSO

Recognized Security Organization International Ship and Port Facility Security Code. Acknowledge since 2004.

Since 2015

SMK3

Occupational Health & Safety Management System refer to government regulation PP No. 50/2012, receiving Gold Flag in 2015 - The highest national acknowledgement for health & safety.

IIHA

Indonesian Industrial Hygiene Association (IIHA), Membership period: November, 6th 2020 - November 6th 2021.

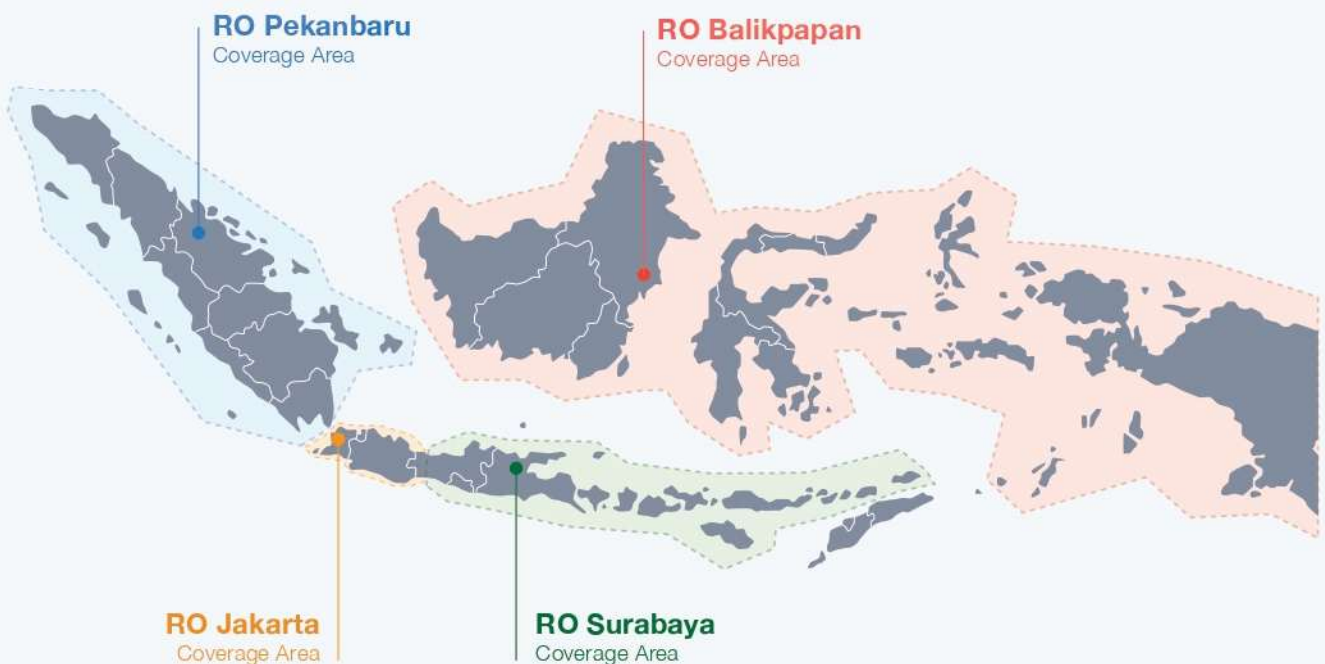

Client Portfolio

Operation Areas

Nawakara is a security services company with three decades of experience in delivering high-quality services across Indonesia. The company is supported by an extensive network, consisting of four Regional Offices located in major cities throughout the country.

With a strong operational network, Nawakara has established a reputation as one of Indonesia's leading security companies. The company consistently upholds high and integrated security service standards, tailored to meet the specific needs of each client.
